MAJEDIE ASSET MANAGEMENT UK INCOME FUND (GBP)

Class Z Acc

ISIN IE00BSTLNK00

The Majedie Asset Management UK Income Fund (the Fund) is a sub-fund of Majedie Asset Management (International) Investment Fund Company PLC (the Company), an Irish domiciled Open Ended Investment Company.

OBJECTIVES AND INVESTMENT POLICY

The Fund aims to maintain an attractive yield, whilst outperforming the FTSE All-Share index (the Index) over the long term, by holding a high conviction portfolio of equity investments. At least 80% of the Fund will be invested in UK equities, with the balance in international equities, cash or near cash. The Fund is actively managed. The Fund is managed in reference to a benchmark in that it has a target to outperform the FTSE All-Share Index but is not constrained by the Index in any way.

No more than 10% of the scheme property may be invested in other collective investment schemes. There is no policy to restrict investment, either by company size, industry or geography. There will be no borrowing for investment purposes. The Class Z Acc shares in this Fund are accumulation shares. This means income from the Fund's investments will be included in the value of your shares rather than being paid out via a dividend.

RISK & REWARD PROFILE

The Risk and Reward indicator table demonstrates where the Fund ranks in terms of its potential risk and return. The higher the rank, the greater the potential reward but the greater the risk of losing money. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean risk free. The shaded area in the table below shows the above named Fund's ranking on the Risk and Reward Indicator. The indicator uses a standard calculation method that is used by all EU companies who offer such funds to allow you to compare funds. The indicator is based on historical data and may not be a reliable indication for the future. The Fund appears at the higher end of the Indicator scale reflecting the typically more volatile nature of a fund investing in securities of companies as these price movements tend to be more volatile than bonds or other fixed income securities.

Equity Risk: the value of equities may fall as well as rise and as a class of investment, equities are typically more volatile than other common investment types such as bonds or cash.
Currency Risk: the fund invests in international securities which are denominated in foreign currencies whose fluctuations may increase the fund's volatility and losses. Some share classes may be designated in a currency other than the base currency (GBP). In such circumstances, adverse exchange rate fluctuations between the base currency and the currency of the share class may result in a decrease in return and/or a loss of capital.
Concentration Risk: the Fund may at certain times, hold relatively few investments which could lead to losses if it holds a large position in a particular investment that declines in value. For more information on potential risks please request the Prospectus using the contact details overleaf.
